

Welcome Message

Dear Colleagues,

The Japan Kawasaki Disease Research Center is honored to be a cosponsor of the Ninth International Kawasaki Disease Symposium. The International Kawasaki Disease Symposium has been held eight times, alternating between Japan and the United States. This is the first time that it is being held in a different venue, Taiwan, and it is a happy, new development. It means that we can greet more participants from all over the world. This marks a new era for Kawasaki Disease research.

We look forward very much to the success of this International Kawasaki Disease Symposium.
